CLEANTECH GULF

Leading Supplier of Cleaning Equipment in Gulf

www.cleantechgulf.com

About Us

Cleantech Gulf is a leading supplier of high quality professional and commercial cleaning equipment in UAE and Saudi Arabia. Our head office is strategically located in Jebel Ali, Dubai having large logistics facility and warehousing for swift distribution and prompt delivery of equipment. We have branches in major cities of the Kingdom of Saudi Arabia. With over 25 years of cleaning industry experience, the company's offerings include full array of Scrubber Driers, Commercial & Street Sweepers, Carpet & Upholstery Extractors, Floor Scrubbing & Polishing Machines, Escalator Cleaning Machines, Steam Generators, Pressure Washers, Vacuum Cleaners, Housekeeping Trolleys, Deep Cycle Batteries, Cleaning Chemicals and accessories sourced from most renowned manufacturers of the World.

Cleantech Gulf's after sales service and technical support is second to none in the industry. We have professionally trained engineers and technicians in every location with full capability to maintain all equipment sold in the region.

Our products and services are distinctive, with a consistently high level of quality and after sales support. We deliver in most convenient ways: whenever and wherever our customers need and want it. At Cleantech Gulf, the only constant is 'CHANGE'.

Overview

Cleantech Gulf is committed to deliver the most innovative, productive & durable cleaning products and after-sales service available in the Cleaning & Hygiene industry Worldwide. We have a strong entrepreneurial history of partnering with facility management companies, cleaning contractors, operation & maintenance contractors, cleaning service providers and in-house cleaning professionals to provide cleaning solutions that help create clean, safe and healthy environment for residential, commercial and industrial areas through the use of innovative cleaning technology developed to minimize the impact of cleaning on indoor and outdoor environments, reduce costs and improve sustainability. Cleantech Gulf embraces core ecological and corporate values including water conservation, use of environment-friendly chemicals and improvement of Indoor Air Quality (IAQ) through the use of HEPA filtration.

Cleantech Gulf is focused on strengthening its product portfolio to meet the aspirations of its customers dependent on mechanization and technology. We want to achieve technology leadership and play a central role in providing best cleaning solutions to our customers. As a leading distributor of reputed European & American brands, we maintain sufficient inventory of spares and offer highest warranty on our equipment in the industry.

SCRUBBER DRIERS

Our broad range of scrubber driers offer the choice of most appropriate selection of the equipment for multiple floor cleaning applications. The scrubber driers are generally used for indoor floor cleaning of mid to large-sized floor areas from 1000 to 8000 Sq. metres. The choice of either walk-behind or ride-on version largely depends upon the area of the floor to be cleaned. It is always advisable to choose the right equipment for optimum performance in the long run.

High Pressure Washers

High Pressure Washers offer maximum cleaning with the minimum effort. These pressure washers can be used in a variety of applications like cleaning heavily soiled floors, building facades and parking areas etc.

Our broad range of heavy duty Pressure Washers are designed to work for long durations. The ceramic pistons and linear pumps offer very high pressures at very low rpms granting longer pump life.
