Brands

Hard Wood Flooring

Solid Hard wood

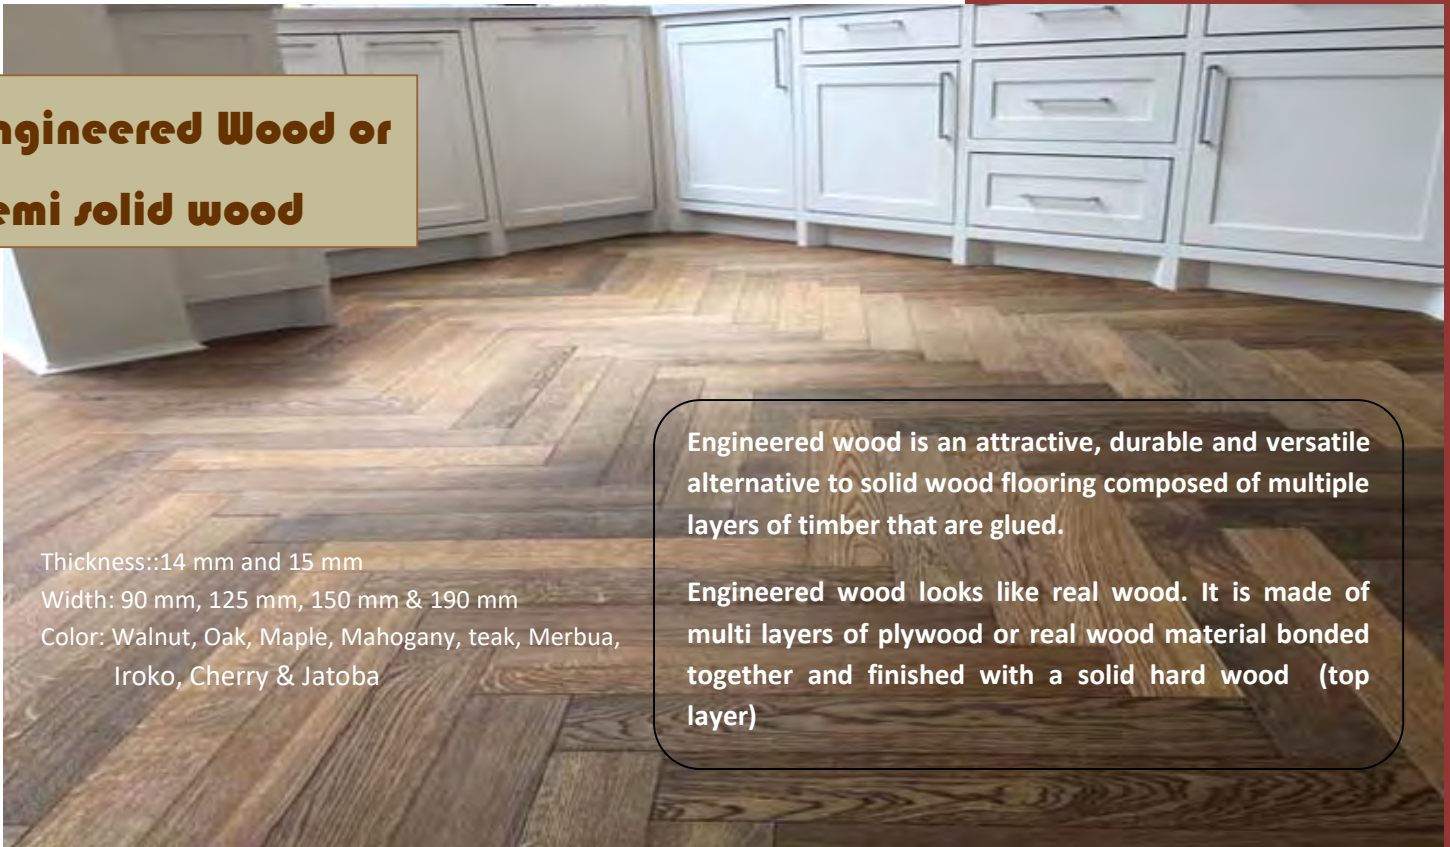

Size::18 mm,20 mm,22 mm & 24 mm
Width: 83 mm, 90 mm, 125 mm & 150 mm
Color: Walnut, Oak, Maple, Mahogany & Cherry

Solid wood is a natural single piece of wood that is machine cut in to different sizes.

It is a best choice in rooms with heavy foot traffics and is durable enough to last a life time. Solid hard wood can be refinished multiple times. It can be sanded, stained and laquered for a clean and glossy finish or can be oiled and can be left untreated for a rustic natural look

Engineered Wood or Semi solid wood

Thickness::14 mm and 15 mm
Width: 90 mm, 125 mm, 150 mm & 190 mm
Color: Walnut, Oak, Maple, Mahogany, teak, Merbua, Iroko, Cherry & Jatoba

Engineered wood is an attractive, durable and versatile alternative to solid wood flooring composed of multiple layers of timber that are glued.

Engineered wood looks like real wood. It is made of multi layers of plywood or real wood material bonded together and finished with a solid hard wood (top layer)

Cork & Bamboo Flooring

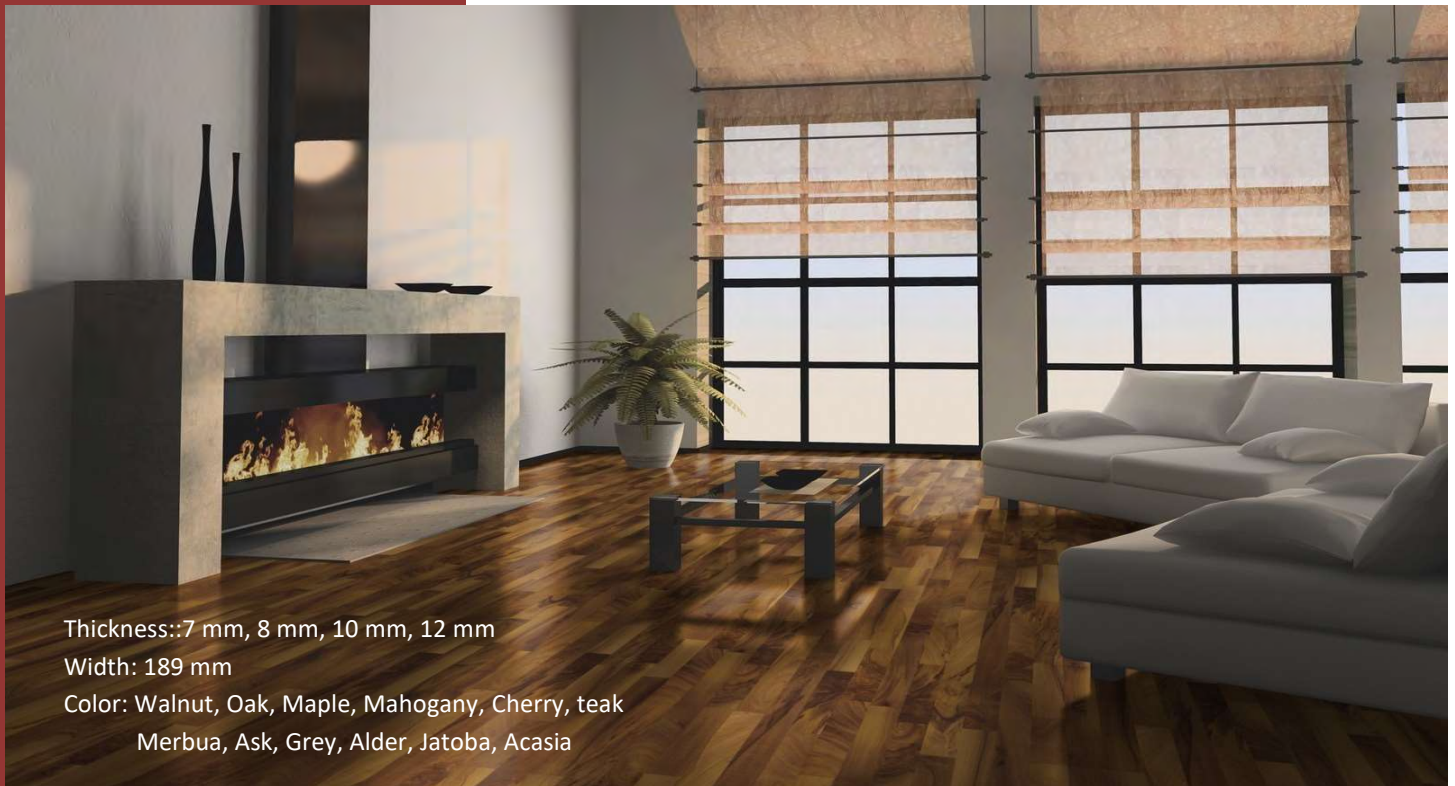

Cork flooring

Cork flooring is durable, plush and now comes in vast selection of colors, It gives you soft , warm and quiet space

Bamboo flooring

Stylish and affordable, Bamboo can take wear and tear and is easy to maintain. It comes in variety of natural colors or

Laminate Flooring

Width: 189 mm

Color: Walnut, Oak, Maple, Mahogany, Cherry, teak
Merbua, Ask, Grey, Alder, Jatoba, Acasia

WOODLAM
Laminated flooring

Laminate wood flooring is made from composite wood pressed through at high temperatures. The image of hard wood is then placed over the composite wood converting it to form the laminate. MDF and HDF are most commonly used for making Laminate flooring. MDF and HDF are made from soft wood fibers that are broken down, combined with wax and risen binder and formed in to planks using high heat and pressure.
