OUR MISSION

“To build the most dynamic, profitable and reputable conglomerate in the gulf by delivering outstanding service and value to clients and also to fulfill the group’s social responsibility by supporting and participating in community service humanitarian work”

OUR VISION

“GEO products will strive to be best-in class as a distributor of quality products and service”

Company Portfolio

In 1977 the Geo Group made its first ripple in Sharjah a pioneering effort, GEO Electricals, Contracting and Trading Company Limited engaged in specialty refrigeration, air-conditioning and other allied activities. We take pride in being associated with several landmark projects through supply of superior products and highly skilled manpower resources. By exploring new horizons, now diversified into various business ventures, spread across four countries Geo Group know that none of this would have been possible if it were not for the bounty of this country and encouragement from the government.

A true visionary, Mr. George V. Nereaparamban, our CMD started Geo Electricals Trading and Contracting Company in the year 1976 in Sharjah, United Arab Emirates. With his dynamism and business acumen he further expanded his Company by setting up an Air-Conditioning Unit. His phenomenal achievements extended far beyond Gulf and India. Behind this dynamic person is a man with a humanitarian heart who deeply cares for the needy. He has immensely contributed to innumerable social causes and projects, expanding the company's Corporate Social Responsibilities (CSR). Mr. George has shown the world that impossible is possible through sheer hard work and dedication by making GEO what it is today.

SINCE 1977

Geo is always committed to

- GEO Continuing to deliver quality services and encourage quality in others.**
- GEO Seeking Continuous improvement and innovative policies, programs and services at competitive rate.**
- GEO Reach out to customers.**
- GEO Building good relations with its clients.**

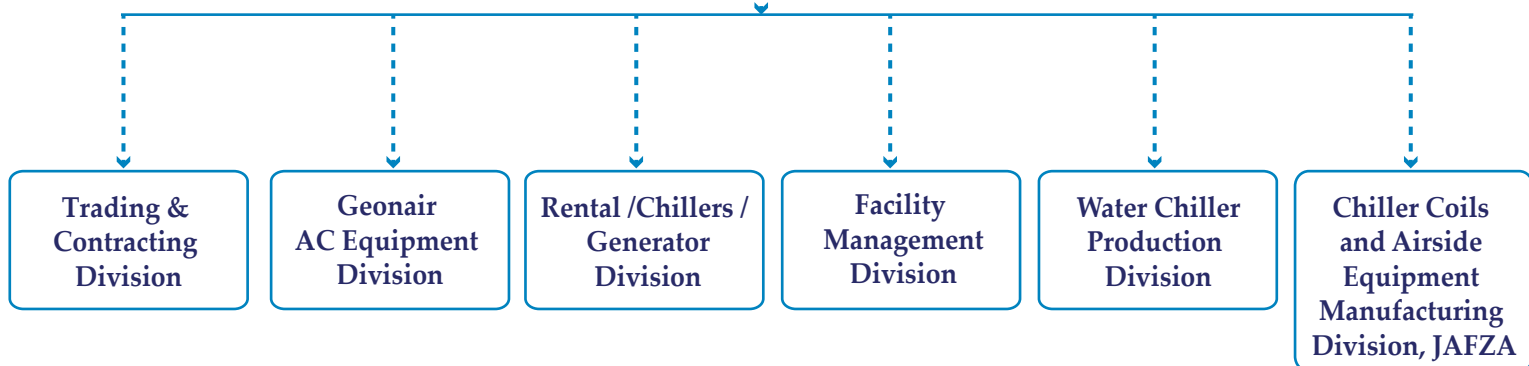

ISO Certification

We have been awarded the prestigious ISO 9001:2008 Certification which confirms that Geo conforms to the Quality Management Standard. We ensure that every solution delivered by us measures up to the highest possible international standards and our valued clients are once again assured that our company's efficient and audited processes will enable them to meet their quality commitment and address issues promptly.

The ISO certification is an enabled testimony of firm's commitment to continuous quality improvement, full proof risk management and complete customer satisfaction. Geo will continue to break new ground, bring greater values to clients and build enduring relationships with global leaders.

Geo consists of six strategic business units. They are broadly given below.

Strategic Business Units

Trading and Contracting Division

Geo's trading division has become synonymous with comprehensive support in quality recondition, air-conditioners and refrigeration and equipments throughout gulf regions. All the products come at premium quality that is regularly updated and are backed with warranties. The product range covers:

Air-Condition & Refrigeration Units

- Water Chiller
- Package Units
- Split Units
- Chilled water Pumps
- Domestic Chillers.
- Compressors.
- Condensers.
- Dehumidifiers.
- Electrical fittings.
- Pump sets and motors.
- Copper pipes / Copper coil
- Concrete Mixers
- Vaccum pumps, on line fans and spare parts

Rental Division for Industrial Projects

Rental division caters to air conditioning and power generation systems. In air conditioning, Geo group offers complete range of products and service from domestic to industrial to district cooling solutions. They are able to take up projects on turn key basis and the Rental division is well equipped with latest equipments, qualified and trained staff, vehicles and necessary equipment. The product range includes:

- *Chillers.*
- *Generators*
- *Freezer container*
- *Chillers for batching plants and plastic industries*
- *Process cooling systems*
- *Generators sets and lighting systems for remote areas*
- *Customized cooling systems for off shore projects, ships, and aircrafts in the hangar for maintenance, power plants and industrial premises.*
- *Mobile cranes*
- *Heavy duty Exhaust fans.*

Chiller / Generator Division

The tailor made specialty refrigeration comes with capacities starting from 1 TR so that the consumer gets exactly what he wants. The product range includes chillers for industrial cooling and process for manufacturing and batching plants, plastic factories, ice plants etc.

Generator Division

We at GEO are fully equipped to cater to the power requirement of the clients. We are providing Generators of various capacities ranging from 2 KVA to 2200 KVA. These state of the art Generators are sourced directly from the manufacturers fitted with Perkins/Cummins Engines. Perkins/Cummins engines are well known for their quality and efficiency in operation. These Generators are offered for outright sale or hire for a shorter duration of one day to higher duration as per the requirement of the clients.

Service and Maintenance Division

With ten's of thousand's of satisfied customers and decades of experience behind the company they have proudly standardized a linear approach to service and maintenance, resulting in delivery of quality services and lasting solutions. Round the clock service is provided with stand-by technicians for uninterrupted performance of equipments rented out. This department is also responsible for extending appropriate warranties to all the products.

The company is also known for their specialized AMC's (Annual Maintenance Contracts) for all equipment's. The service division is well organized with the support of a substantial fleet of vehicles to meet emergency requirements. To back the sales network, efficient and able management will be provided. Execution of any type of maintenance and service requirements will be made available round the clock, ensuring complete consumer satisfaction. Geo group realizes their moral responsibility to society, Geo group is a one stop solution for all weather conditioning requirements.

Our Brand 'Geonair'

The brand and the labor of love, "Geonair" is the result of long and intensive research into modern and up-to-date methods. Geonair" covers a wide range of air-conditioning and refrigeration products and is manufactured in Thailand under extreme quality control processes with ESMA standards. Over the years "Geonair" has come to stand for quality coupled with durability. Only certified fittings and fixtures of the finest quality are used in all geonair products. Geo electrical equipment establishment handles the retailing function of "Geonair" and the supplier of original spare parts. Geonair" products are available at competitive prices along with after sales services.

Geonair Split air conditioners

Split air conditioners are cost effective choice to center air conditioning. They are typically more effective than wall or window air conditioner. Since the compressor sits outside, the mini split air conditioners are very quiet and efficient. All our Geonair units are having ESMA (Emirates Authority for Standardization & Metrology) rating, which has been registered and approved by ECAS (Emirates Conformity Assessment Scheme) and has the best star rating which suits the weather conditions especially in the gulf regions.

Geonair units include:

- Geonair Chiller
- Package Units
- Free standing units
- Ducted split unit
- Cassette type unit
- Ceiling type unit
- Wall type unit
- Floor type unit
- Fan coil unit
- Air-handling unit (AHU's)
- Fresh-air handling unit (FAHU's)
- Window air-conditioners

Air conditioning & Spare parts Division

Geo Group provides the industry's widest range of filter-driers, accumulators, solenoid valves, thermostatic expansion valves, pressure regulators, strainers, couplings, service valves other products for controlling the flow of refrigerant. Commercial, residential and industrial markets are served. They also include segment, in the Mobile Air Conditioning segment, the Group provides air conditioning hose, steel and aluminum receiver dryers, steel and aluminum accumulators, thermostatic expansion valves and other products for cooling systems in automobiles. In the Fluid Control segment, the Group provides two, three and four-way solenoid valves, process control valves, high pressure steam valves, electro pneumatic regulators, and generators to control and meter fluids in a wide variety of applications.

Used and Re-conditioned Products Trading Division

Purchases, sales and exchange of used or re-conditioned items of all leading brands, at reasonable prices will also be handled by this department.

Spare Parts and Accessories

A wide range of original spare parts for all air-conditioning and refrigeration equipments, working tools, electrical controls, refrigerant, adhesives, and insulation materials will be available here.

Infrastructure

GEO is undoubtedly the market leader in the UAE engaged in air-conditioning and generator rental business. Geo comes first in terms of infrastructure, facilities, staffing numbers, equipment and off course experience. Geo Electrical has a full fledged engineering workshop to do periodical maintenance, custom modifications on units for special requirements. Storage facilities include 3 Open Yards and 28 Warehouses with an area of 1, 70000 sq ft. All spare parts for their units from nuts & bolts to compressors of all capacities are readily available so that clients can be assured of trouble free operation. Geo Electrical has a team of 184 well experienced and trained personnel including AC Technicians, Electricians, plumbers, HVAC engineers backed by professional Management. Scrutiny of the market and following the air-conditioning industry for over three decades Geo Group is the ideal provider for all the customer's cooling needs.
