Company Overview

DuSense LLC was established In Dubai UAE July 2014 by Mike Shaw, a UK Instrumentation Technologist with more than 40year's experience of major construction and oil and gas projects worldwide, Mike's broad project background enables the business to provide customers with highly professional level of support for your measurement and monitoring requirements.

From our Dubai office we support all markets providing advanced technology solutions, Civil , Construction, Oil and Gas, Nuclear Civil, Transport. ‘ Frequently our clients need to verify that their civil or marine structures, plant or equipment are performing as required and operating within their design boundaries, our quest is to ensure that the systems and services we provide guarantee reliable information is available for our customers so they can continue to assess, improve and innovate with complete confidence.’

The DuSense motto “Sensing Safety for the Middle East” reflects our main objective is to provide sensors, systems and services of the highest quality for every project we are involved with, our keywords for safe sensing systems are precise reliable trustworthy measurements.’

**A selection of our
Company Activities, Products and Services**

- Structural and Ground Monitoring
- Geotechnical Instrumentation and Investigation
- Bi-Directional Static Load Testing
- Pile Testing
- Load Measurement / Weighing Systems
- Drilling Rigs and Drilling Products
- Strain Gauges
- Load Cells/ Weighing Scale
- Pre-Stressing and Post Tensioning Systems
- GeoSynthetic Mesh for Ground Movement Stabilisation
- Solar Energy and Equipments
