ROYAL TENT

Al Fares Tents are manufactured in the United Arab Emirates

Our Royal hall is our icon. It is used for events that host a great number of people and is known for its spacious interior. With its delicate and unique structure, the Royal can be furnished with different accessories that fit all events and needs. The Royal is mostly used for exhibitions and very few companies have it worldwide.

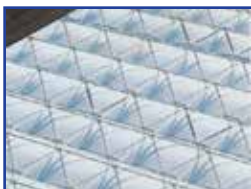

All our tents can help your company with marketing and brand exposure

The structure of The Royal is made of reinforced aluminum designed to handle difficult weather conditions. The structure is known to be exclusive and our team fixes the structure to the ground to a base made of high quality steel that is held in place with steel rods.

A unique type of structure is used for this hall that combines pyramidal shapes and allows the overall form to become architectural and inventive.

5m x 5m units combined together to create one element that has flexibility to change according to the preferred size.

Segmental roof is adjustable to span of the building.
