

Mastermed Equipment's Trading is healthcare solutions provider to our esteemed clients all over in UAE. We are established in the year 2010 in Dubai as an LLC. By then, with lots of efforts and commitments we made a remarkable growth in the market as sales and service provider. Now, we are recognized as smart solutions provider in the healthcare industry of the region, especially in private sector.

At present we are supplying variety of medical equipment and instruments such as patient monitoring devices, emergency equipment's, OT equipment's, ICU equipment's, dermatology lasers, patient evaluation equipment's and instruments, surgical equipment's and instruments for gynecology, urology, ENT and general surgery, medical furniture and home care products. In addition to this, we are dealing with medical consumables and disposables, spare parts and accessories to all brands of medical equipment's and providing technical support and service contracts to all kind of healthcare facilities through our engineering division.

Our Mission:

To effectively serve all of the specialized and diverse needs of the healthcare sector, while conducting ourselves with honesty and integrity. We dedicate ourselves to our customers, our suppliers and to one another in order to effectively distribute our products and services in superior quality to the healthcare community.

Our Vision:

Our vision is to be the premier regional distributor to the healthcare industry in the market segments we serve. We will achieve this goal through an ongoing commitment to innovation, customer satisfaction, quality and service. A balance leadership and teamwork will serve as our foundation.

Our Team:

Each member of the Mastermed team is focused on providing our customers with exceptional service. The Mastermed culture of accountability results in constant, measurable performance improvement which is communicated to and shared with our customers.

Our Difference:

Mastermed differentiates ourselves from our competitors with the quality of our team and our proven ability to define and implement customized supply chain solutions: we fit our solutions to our customers, not our customers to our solutions.
