# Sustainable, Eco-friendly Floor Covering to Last a Lifetime.

**Inovar Bamboo Flooring** offers more than just comfort and durability. It is produced with materials that are sourced from sustainable bamboo plantation forests and therefore, it is extremely eco friendly.

Harder and stronger than many conventional timber panels, **Inovar Bamboo Flooring** fits equally well in residential and commercial interiors. From mild, gentle shades to darker or more outstanding colors, **Inovar Bamboo Flooring** offers a good variety to suit most interior styles.

## **Inovar Bamboo Flooring**

### A Stronger and More Eco-Friendly Solution.

Apart from being a well-known rapidly renewable natural resource, researches have shown that bamboo has a higher tensile strength than many alloy or steel and a higher compressive strength than many mixtures of concrete. Based on the Janka Hardness Scale, bamboo ranks well above most solid timber flooring and offers a rating of approximately 3,000 Psi.

Produced with the unique strand woven technology where solid bamboo strands are fused together to produce an extremely dense and hard material, **Inovar Bamboo Flooring** is more than twice as hard on the Janka Scale compared to solid oak, making it the perfect choice when durability and eco friendliness are the main priorities.

# Advantages of Inovar Bamboo Flooring

## Extremely Eco-friendly

Bamboo takes only 5 years to reach full maturity compared to natural timber which takes up to 60 or even 100 years for hardwood species. This makes bamboo a fantastic choice for an eco-friendly floor covering material.

## High Resistance to Indentations, Fading and Abrasion

Its strong and sturdy surface has a high resistance against indentations, fading and abrasion.

## Good for Residential and Commercial Applications

The natural, eye-pleasing color shades as well as its hardy surface make it an excellent floor covering material for both residential and commercial applications.

## Patented Glueless Interlocking Installation

A patented interlocking system ensures speedy and hassle free installation.

## Excellent Colors

A range of beautiful colors and shades to fit most residential and commercial interiors.

## Consistency in Quality and High Stability

The unique production process of strand woven solid bamboo flooring ensures a high degree of consistency and stability in the quality of the product.

## Inovar Bamboo Flooring Collection

**Installation :** Patented Glueless Interlocking System  
**Size :** 1,850mm (L) x 125mm (W) x 14mm (Thick)  
**Packing :** 6 pcs / carton (1.3875sqm / carton)
